

# UNICITY UNICITY COMPLETE

## LIVE LIGHTER

Are you satisfied with your weight? No!? Then you belong to a large part of the population who thinks similarly. Lack of time and convenience often leads to skipping meals or eating fast food. A one-sided diet, deficient of nutrients, often leads to a lack of motivation, listlessness and tighter fitting clothes. Those who wish to avoid this must watch their diet and exercise regularly. A diet rich in protein has often proven beneficial in maintaining a slim figure.

## CONTAINS

- Contribute to normal energy-yielding metabolism (Vitamin B1, B6, B12, C, Biotin, Calcium, Iron, Iodine, Copper, Niacin, Pantothenic acid, Riboflavin, Magnesium, Manganese)
- Contribute to the normal function of digestive enzymes (Calcium).
- Contribute to normal macronutrient metabolism (Chromium).
- Contribute to maintenance of normal connective tissues (Copper).
- Contribute to the maintenance of normal skin (Biotin, Iodine, Niacin, Riboflavin).
- Contribute to the normal function of the immune system (Vitamin B12 and C).
- Contribute to the protection of cells from oxidative stress (Vitamin C, E, Copper, Manganese, Riboflavin).
- Contribute to the normal function of the immune system (Vitamin A, B6, B12, C, Iron, Copper).
- Contribute to normal functioning of the nervous system (Vitamin B1, B6, B12, C, Biotin, Iodine, Copper, Magnesium, Niacin, Riboflavin).
- Contribute to the reduction of tiredness and fatigue (Vitamin B6, C, Iron, Magnesium, Niacin, Pantothenic acid, Riboflavin).
